THE PROCTER & GAMBLE CO., CHICAGO.

GIRLS FILED FIVE DEEP.

It Was in a Football Game and They Ricked Hard.

BALTIMORE, Nov. 17.—The girls at a young ladies' assembly at Cantonville played a game of football yesterday. The invincibles had red toboggan caps, with jaunty tassels and red skirts. The Unquenchables wore blue caps and blue skirts. All wore black hose.

There was no gridiron. When they saw the ball they kicked at it, and when one of them got a chance to pick up the ball she gathered it in and ran with it and gave it a swat against the fence at one end of the grounds for goal, for there were no goal posts. A hedge at the other end did good service for the other side.

Some of the most delightful scrimmages imaginable occurred. Often they were piled five deep.

Sixty-two more biscuits can be made with a pound can of Dr. Price's Baking Powder than with any other kind.

HE'S AN HEIR.

But Sergeant "Billy" Blair Will Stick to the Force.

It would be difficult to find a happier man on Manhattan island than Police Sergeant "Billy" Blair, who is attached to the city hall station. "Billy," as his companions style him, has fallen heir to a fortune of \$50,000, left him by his uncle, Lewis R. Blair, and yet when seen the other evening he was as assiduously delving into the depths of the Police Manual as though nothing unusual had happened.

"Will I leave the department?" remarked the sergeant. "No, sir. Fifty thousand dollars will make no difference in me. I'll remain right here. The too fond of my duties and companions to permit such a trifle as \$50,000 to change my course of life. By the way, that puts me in mind of something. Say, do you know that my uncle, Lewis, was a son of Robert Blair, of Marlborough, Ulster county, N. Y., a member of General Washington's life guard and the identical soldier who gave Major Andre his last breakfast on earth. Proud of my genealogical tree? Well, I should say so. And if ever you visit the parlor of my humble abode you will find Robert Blair's honorable discharge by George Washington framed and given a prominent place in my collection of valuable paintings."

"How many years have I been on the force?" Well, I guess you may say 38. One of the old volunteer fire laddies? Yes, sir, and proud of the distinction. I haven't got the \$50,000 yet, for I understand that Surrogate Arnold's decision is to be appealed from. But it will make no difference. Nothing but old age will drive me from the department. What's that? Purchase a racing stud? No sir—but excuse me, I must attend to my duties," and Sergeant Blair proceeded to answer a hurry call on the telephone instrument.

TRADE LIVENS.

Improvement is Noticed in Nearly All Branches.

Will Take Some Time to Relieve the Depression.

THE ISSUE OF BONDS.

The New Loan is Generally Approved by the Bankers.

NEW YORK, Nov. 17.—R. G. Dun & Co.'s weekly review of trade says: In nearly all branches of business gradual improvement appears and the hopeful feeling obtained last week still continues. It will take time to relieve business of its depression, and the progress made, if less than the sanguine expected, is at least encouraging. The decision to offer \$50,000,000 bonds for replenishment of treasury reserve was, by bankers generally approved.

It is generally assumed the bonds will be taken at once. The effect is less easy to anticipate, for the formal announcement that after a general reconstruction of the revenue laws it is still found necessary to borrow largely tends to raise doubt about the future. The reported importation of gold from London with a loss on its face of \$7,500 at the present exchange rates is presumably meant to affect bond subscriptions. There have already been some withdrawals of gold from the treasury by redemption of notes to make payments for bonds and goods rather than gold are likely to come from Europe.

Resumption of work and increase of working time have been more conspicuous in the cotton industry than in others, but no increased demand for goods appears.

Manufacturers of woollens have good orders for the time of the year, but still running mainly on such orders, but there is a general failure of supplemental orders for spring goods.

Sales of goods are again smaller than last year.

Speculative markets have been stimulated in part by the call for bonds, and wheat has advanced 1/4c, corn 1/8c and cotton 1-16. Western wheat receipts in two weeks of November have been 7,871,671 bushels against 12,168,830 bushels last year, but Atlantic exports in two weeks have been only 1,029,305 bushels, against 1,770,643 bushels last year, and they are not increased by the advance in price, which is partly due to accounts of extensive feeding to cattle. In October over half the exports were from the Pacific coast, at less than 50 cents, so that the average for all exports was only 50.8c, against 68.5c last year. Corn receipts have been less than half of last year's, with exports larger than last year's.

The failures of the week have been 270 in the United States against 232 last year.

Railway Mail Service.

General Superintendent White Discusses Its Needs in His Report.

WASHINGTON, Nov. 17.—Captain James E. White, general superintendent of the railway mail service, has made his report to the postmaster general. The main facts and figures of the report have been given in the report of the second assistant postmaster general.

Captain White, however, devotes considerable space to the interruption of the service on account of strikes during the past summer. The general superintendent calls attention to his recommendation of last year for the passage of a law making it a felony for any organization or individual to delay, obstruct or prevent the passage of any train on any railroad upon which mails are carried, should be reorganized.

The benefit of the civil service method of appointing clerks is recommended, and it is stated a much larger per cent of the men given probationary appointments in the service secure permanent appointments than under the old plan of patronage appointments.

KANSAS HEROINE.

Maud Schemmerhorn, Aged 18, Saves Her Associate From Burning to Death.

WICHITA, Kan., Nov. 17.—Fire broke out in the Patterson house at Harper yesterday morning at 4 o'clock. A furious gale was blowing at the time and there were thirty-seven guests in the house. Two dining room girls were nearly suffocated with smoke when they discovered the fire. Maud Schemmerhorn and Mattie Harper were the girls. The latter fell exhausted in her room, but Miss Schemmerhorn, who is only 18 years old, broke a window, threw Miss Harper out and followed her, later, after her flesh. Miss Schemmerhorn then gave the alarm, and over a dozen guests were taken from the building more dead than alive. Twenty other houses caught fire, but the citizens and fire department succeeded in putting it out except the hotel and out-buildings. The loss is \$15,000.

Chicago has a Parkhurst. CHICAGO, Nov. 17.—Rev. Carlos Martyn, formerly of New York, has resigned as pastor of the Sixth Presbyterian church, Chicago, and will devote himself to a local crusade against municipal corruption.

BOND ISSUE QUESTIONED.

Congressman Bailey of Texas, Declares There is no Authority for It.

WASHINGTON, Nov. 17.—As soon as possible after congress meets Representative Bailey of Texas, will call up his resolution, introduced during the last session, which declares that the secretary of the treasury has no authority under the present law to issue bonds. Mr. Bailey is confident it will meet with favorable action in the house and hopes for the same result in the senate.

He emphatically declares that it is to avoid the almost certain interference of congress that the present issue of bonds is being rushed at the present time.

Prior to the issuance of the former call for bids on January 23, 1893, several bills were introduced in the house looking to legislation prohibiting the secretary of the treasury from selling bonds except under a strict interpretation of the resumption act.

All of these proposed measures were referred to the judiciary committee. The resolution introduced by Mr. Bailey was favorably reported from the committee, placed upon the calendar and is the only measure on the subject now awaiting action by the house.

January 25, 1893, Secretary Carlisle appeared before the house judiciary committee and spoke for an hour and a half upon the subject of carrying out the resolution which declares that the secretary has no authority under the present law to issue bonds.

In reply to questions, Mr. Carlisle is stated to have said that under the resumption act he had authority to issue bonds, and to use the proceeds for defraying the expenses of the government, and for the redemption of notes issued under the Sherman law.

The report of the judiciary committee on Mr. Bailey's resolution takes issue with the secretary on that point, and emphatically declares that "it appears too clearly for argument that the secretary is authorized by the resumption act to issue bonds only to enable him to provide for the redemption of notes issued under the Sherman law."

REWARDS FOR OUTLAWS.

Muskogee Offers \$1,500 for the Heads of the Cook Gang.

MUSKOGEE, I. T., Nov. 16.—Citizens of this town, disgusted with the lack of interest manifested by government officials in the suppression of outlaws, have offered a reward of \$1,500 for the arrest of Bill Cook, Cherokee Bill, James French, Skeeter and James Turner. This amount will will supplement the reward of \$300 offered by the government, the \$350 offered by Chief Harris and rewards which it is hoped the express companies may be induced to offer.

A most peculiar condition of affairs developed yesterday afternoon. The Creek light horsemen encountered fifteen deputy marshals and mistaking them for bandits surrounded them. The marshals, mistaking the soldiers in the same manner and had it not been for Chief Perryman of the Creek nation, who kept posted on the movements of both bodies of men, a fight would have ensued.

Among the removals said to be slated are those of Manager Schwab, of the Homestead plant, and Patrick Dillon, of the Twenty-ninth street mill.

DR. MCGOSH DEAD.

The Well Known Educator Dies at His Home Near Princeton.

PRINCETON, N. J., Nov. 17.—Dr. James H. McGosh, the venerable ex-president of Princeton university, and a leading educator of the age, departed this life at 10 o'clock last night. He had been conscious nearly all day and died in that condition.

Narrowly Escaped Lynching.

ARDMORE, Ind. Terr., Nov. 17.—Deputy Marshal Porter Young from Ryan, Ind. Terr., lodged Dr. C. B. McHenry safely in the United States jail here yesterday. McHenry is charged with assaulting a girl 13 years of age, the niece of McHenry's wife. At Ryan a mob organized with the avowed intention of lynching him, and but for the strenuous efforts of the officer they would have succeeded. McHenry is 60 years of age and has children grown and has heretofore borne a high reputation.

Wheat is Scarce.

BOXER RIORDAN DIES.

Fitzsimmons Killed His Sparring Partner at Syracuse.

A Terrible Blow on the Chin Does the Work.

FITZ IS UNDER ARREST

They Were Giving an Exhibition of Boxing.

SYRACUSE, N. Y., Nov. 17.—Robert Fitzsimmons knocked out and killed Con Riordan, his sparring partner, last night in the first round of his usual exhibition, which closes the program of his vaudeville show. Jacobs theater was crowded to witness the entertainment, and the audience departed for their homes little knowing that Riordan was still unconscious. The blow was a right-hander and caught Riordan squarely on the chin. He did not fall to the floor from the force of the blow, but sank slowly until he measured his length on the stage. The accident occurred at 10:30 o'clock and two physicians worked over him with applications of electricity for two hours and a half, without being able to restore him to consciousness. At 12:30 o'clock he was removed from the theater to the Hotel Canfield. It was taken by Manager Glori that Riordan had been drinking hard all day and that he was intoxicated when he came on the stage for the set-to.

Immediately after the Riordan incident Riordan, a local sparrer, put on the gloves for a two round set-to with Fitzsimmons. In the second round Dunfee landed a right hander on Fitz's jaw, securing a clear knockdown, the first, Fitz declares, he was ever given. He was so dazed when he regained his feet that he could not see Dunfee's hand when it was extended at the call of time.

Fitzsimmons was arrested when the physicians gave up hope of saving Riordan's life.

Riordan died at 3:15 o'clock this morning.

THE SAME AS AFORESAID.

A Victim of Lawyers' Intermittent Work in the Insane Asylum.

Joseph P. Wilson was once a Nemaha county lawyer. He is now in the state insane asylum. He may have been driven insane by an attempt to master the intricacies of legal phraseology. He has just written "letter No. 56."

It is evident from his letter, stripped of the legal terms, that Mr. Wilson has joined the crowd of office seekers. He says in letter No. 56: "I, the said Joseph P. Wilson, of Nemaha county, state of Kansas, was returned to the said state insane asylum, county of Shawnee, state of Kansas, for a formal examination by the staff or board of physicians of the said state insane asylum in Shawnee county, state of Kansas, for the purpose of, and I now demand that I, the said Joseph P. Wilson, be furnished with a lawful office and an honorable discharge and to officially, lawfully, peacefully, honorably, legitimately and peaceably to set me, the said Joseph P. Wilson, at large without let or hindrance and subject and amenable to the constitution and law only."

Berthelot, the French chemist, thinks that perfect food can be made from coal, air and water. He holds this opinion because the constituents of food are carbon, oxygen, hydrogen and nitrogen. SILVER AND PROTECTION.

McKinley Called Upon to Declare Himself on the Money Question.

PHILADELPHIA, Pa., Nov. 17.—Wharton Barker has written an open letter to Governor McKinley asking him to publicly state his views on the money question, and at the same time suggesting that the Republican campaign of 1896 should be made "for American protection and American bimetalism against British gold monometallism." Mr. Barker suggests a plan for the re-establishment of silver in our coinage, which he believes the only safe one for the United States to adopt without international agreement.

It is, first, that the United States shall admit silver bullion from American mines to coinage in its mints upon the payment by the owner of a seigniorage absorbing three-fourths of the difference between the market (London) price of the bullion and its value when coined. Second, that silver shall be admitted only for coinage purposes at a seigniorage absorbing all of the difference between the market (London) price and its value when coined.

SPRINGFIELD, O., Nov. 17.—Hon. Thomas Taggart of Indianapolis, chairman of the Democratic state central committee of Indiana, who is here visiting his brother-in-law, stated that Benjamin Harrison would unquestionably be a candidate for the nomination as president. He added that it was Harrison against the field.

WORK OF A MADMAN.

A Merchant Kills His Wife and Sister-in-Law and Shoots Himself.

ELMIRA, N. Y., Nov. 17.—Martin J. Strait, a well-known flour and feed dealer, yesterday afternoon fatally shot his wife, put one bullet in the body of Mrs. William Whitford, which may cause her death, and then turning the revolver on himself, tried three times to put a bullet through his own heart, failing to strike that organ, but inflicting wounds which will undoubtedly cause his death. The shooting was the result of domestic difficulties.

Presumption.

Thomas Sheridan, the father of Lady Dufferin, once displeased his father, who, remonstrating with him, exclaimed: "Why, Tom, my father would never have permitted me to do such a thing!" "Sir," said his son, in a tone of the greatest indignation, "do you presume to compare your father to my father?"
